OBJECTIVE

I'm looking for full-time work in the role of Software Developer in the IT and telecommunications industry.

PERSONAL STATEMENT

Proactive and detail-oriented Full Stack Software Engineer with over 9 years of experience building and scaling web applications. Skilled in Ruby on Rails, React.js, and AWS-based infrastructure. Adept at leading projects from inception to deployment, and passionate about solving challenging engineering and product problems. Currently seeking a full-time opportunity to contribute to mission-critical initiatives in a collaborative, fast-paced environment. Currently holding a post-study open work visa in New Zealand and immediately available for full-time roles.

WORK HISTORY

Alien Attorney
Atlanta, USA
Nov 2023 - Dec 2024

Full Stack Developer (Part-Time)

Worked remotely on a 20-hour/week schedule while studying full-time.

- Delivered scalable web applications using React.js and TypeScript in a high-growth legal tech startup.
- Built and integrated RESTful APIs, collaborating closely with backend teams to ensure seamless interactions.
- Optimized PostgreSQL queries and schema, boosting system responsiveness by 95%.
- Demonstrated full ownership of features and enhancements, driving significant improvements in system stability.

Globallogic Pvt Lmtd
Noida, India
Jun 2019 - Jun 2023

Senior Software Engineer

- Spearheaded the development of financial applications with React, Next.js, and Ruby on Rails backends.
- Integrated Apple Pay and Google Pay, increasing payment success rates and usability.
- Implemented CI/CD pipelines and cloud infrastructure on AWS, improving deployment speed by 70%.
- Championed reusable component libraries and clean code principles to accelerate development.

Maropost
Mohali, India
Nov 2016 - Aug 2018

Associate Team Lead

- Led a team to develop and maintain API-driven SaaS email marketing tools.
- Integrated complex mobile SDKs and introduced observability using APM tools.
- Reduced API response time by over 40% by addressing architectural bottlenecks.
- Provided technical mentorship and facilitated regular peer code reviews.

Fizzy Software Pvt Lmtd
Gurgaon, India
May 2015 - Nov 2016

Software Developer

- Designed and built scalable backend services using Ruby on Rails.
- Created robust authentication and authorization layers, enhancing security and user experience.
- Increased code coverage to 98% with RSpec and automated testing pipelines.

QUALIFICATIONS

Govt Engineering College
Punjab, India
2010 - 2013

Bachelors of Technology

ICL Graduate Business School
Auckland, New Zealand
2024

Masters of Business Informatics

TECHNICAL SKILLS

- Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Redux, Tailwind CSS
- Development Practices: Agile/Scrum, Microservices, TDD, Clean Architecture
- Backend & APIs: Ruby on Rails, RESTful APIs, PostgreSQL
- Cloud & DevOps: AWS (EC2, S3, Lambda), CI/CD, Git, SonarQube

PERSONAL SKILLS

Positive attitude

Known for embracing challenges in high-pressure situations, I thrive on motivating colleagues and improving workplace morale. My commitment to a positive workplace culture has consistently led to enhanced team performance.

Team Collaboration

Dedicated team player with a proven track record of collaborating in diverse groups to achieve common goals. Skilled in fostering open communication and building strong relationships, I contribute positively to team dynamics for innovative solutions.

Willingness to Learn

Eager and adaptable learner with a strong commitment to continuous professional development. I actively seek out new challenges and opportunities to enhance my skills, ensuring I stay current in a rapidly changing environment.

Collaborative Problem Solving

Analytical thinker with strong problem-solving abilities, adept at evaluating complex situations and developing effective solutions. Skilled in synthesizing information from diverse sources to make informed decisions that drive project success.

Attention to Detail

Pioneered the integration of new technologies and frameworks into existing software, driving a 40% increase in development speed and enabling the team to adopt modern practices.

ACHIEVEMENTS

Pat on the Back

2020
GlobalLogic – Recognized for mastering React.js within a week and contributing to live projects immediately.

Employee of the Month

2017
Maropost – For outstanding leadership and cross-functional collaboration that significantly improved product delivery.
